rup business modeling

rup business modeling pdf

The Rational Unified Process (RUP) is an iterative software development process framework created by the Rational Software Corporation, a division of IBM since 2003. RUP is not a single concrete prescriptive process, but rather an adaptable process framework, intended to be tailored by the development organizations and software project teams ...

Rational Unified Process - Wikipedia

This page provides links to my books and web-based writings. Over the years I have published a fair bit of information, some of which is contradictory (although the advice fits the context), on several sites.

Scott Ambler's Articles - AmbySoft

IBM Software systems and applications are designed to solve the most challenging needs of organizations large and small, across all industries, worldwide.

IBM Software | IBM

Agile software development teams embrace change, accepting the idea that requirements will evolve throughout a project.

Agile Requirements Change Management - Agile Modeling

Model-driven engineering (MDE) is a software development methodology that focuses on creating and exploiting domain models, which are conceptual models of all the topics related to a specific problem.

Model-driven engineering - Wikipedia

In ingegneria del software, UML (unified modeling language, "linguaggio di modellizzazione unificato") Ã un linguaggio di modellazione e specifica basato sul paradigma orientato agli oggetti.

Unified Modeling Language - Wikipedia

The New Methodology. In the past few years there's been a blossoming of a new style of software methodology - referred to as agile methods. Alternatively characterized as an antidote to bureaucracy or a license to hack they've stirred up interest all over the software landscape.

The New Methodology - Martin Fowler

Der Rational Unified Process (RUP) ist ein kommerzielles Produkt der Firma Rational Software, die seit 2003 Teil des IBM-Konzerns ist. Es beinhaltet sowohl ein Vorgehensmodell zur Softwareentwicklung als auch die dazugehÃrigen Softwareentwicklungsprogramme.

Rational Unified Process â€ Wikipedia

Rational Unified Process of RUP is een iteratief softwareontwikkelingsproces. Dit proces is een uitgebreide verfijning van het generieke Unified Process (UP) en is ontwikkeld door Rational Software Corporation dat nu een divisie is van IBM.
