I have a Nordyne S3QA-042KA. When I turn it on to cool at the thermostat it will run for 5-15 minutes and work as it should and blow cold air. Then the condensing unit fan will stop and after a few minutes it will start screeching. I shut it off. You can wait about 30-40 minutes and repeat the process with it running fine for a few and then the fan stops again. I'm wondering if it is the start ...
