

Sanitation Wikipedia

sanitation wikipedia pdf

Ecological sanitation, which is commonly abbreviated to ecosan, is an approach, rather than a technology or a device which is characterized by a desire to "close the loop" (mainly for the nutrients and organic matter) between sanitation and agriculture in a safe manner.

Sanitation - Wikipedia

Improved sanitation is a term used to categorize types or levels of sanitation for monitoring purposes. The term was coined by the Joint Monitoring Program (JMP) for Water Supply and Sanitation of UNICEF and WHO in 2002 to help monitor the progress towards Goal Number 7 of the Millennium Development Goals (MDGs).
